

## I. INTRO

Don't forget to include examples of topicalization. They look like this:

(1) Topicalization from sentential subject:

a John<sub>i</sub> [a kltukl [el I-oltoir er ngii<sub>i</sub> a Mary]]

**R**-clear COMP **IR**.3S-love P him

John, (it's) clear that Mary loves (him).

*How to handle topicalization*

I'll just assume a tree structure like (2).

(2) Structure of A' Projections:

*Mood*

Mood changes when there is a topic, as well as when there is WH-movement. *Irrealis* is the mood when there is a non-subject topic or WH-phrase in Comp. *Realis* is the mood when there is a subject topic or WH-phrase.
